

Research Funding Opportunity

Program Title	Power Technology – Broad Agency Announcement (BAA)
Solicitation/RFP Code	W909MY-07-R-0016
Funding Organization(s)	U.S. Army – Comm. Electronics Life Cycle Management Command
Funding Amount(s)	Pre-solicitation
Application Deadline(s)	Federal gov't fiscal years 2008 – 2010

Program Summary

NAICS Code: 541710 – Research and Development in the Physical, Engineering, and Life Sciences –
- Applied research and development of power, storage, and distribution technologies that when applied as a system will support Army quality of life, field-based operations, combat vehicles, weapons systems, surveillance techniques, and communications platforms.

This BAA is intended for the advanced development of emerging research in power and energy conversion, power generation, energy storage and recovery, renewable energy, and hybrid intelligent management technologies. Specific areas of interest include but are not limited to: advanced heat engines, fuel cells, energy storage/recovery, hybrid power technologies, advanced materials, and intelligent power management. Desired development areas are en

The specific topics of interest are:

- JP-8 Fueled Internal Combustion Power Source
- Fuel Cell Technology
- Hybrid Intelligent Power (Hi-Power) Management:
